

VCU-CS-CAPSTONE GITHUB REPOSITORY SETUP

Instructions:

This is a group assignment of CMSC 451 due on September 13 at 11:59pm EST. Only one pdf needs to be submitted on behalf of all the members of a team.

Please use this template to take and provide 5 screenshots of your VCU-CS-Capstone repository. Delete my screenshots and replace them with yours.

Screenshot #1: your team

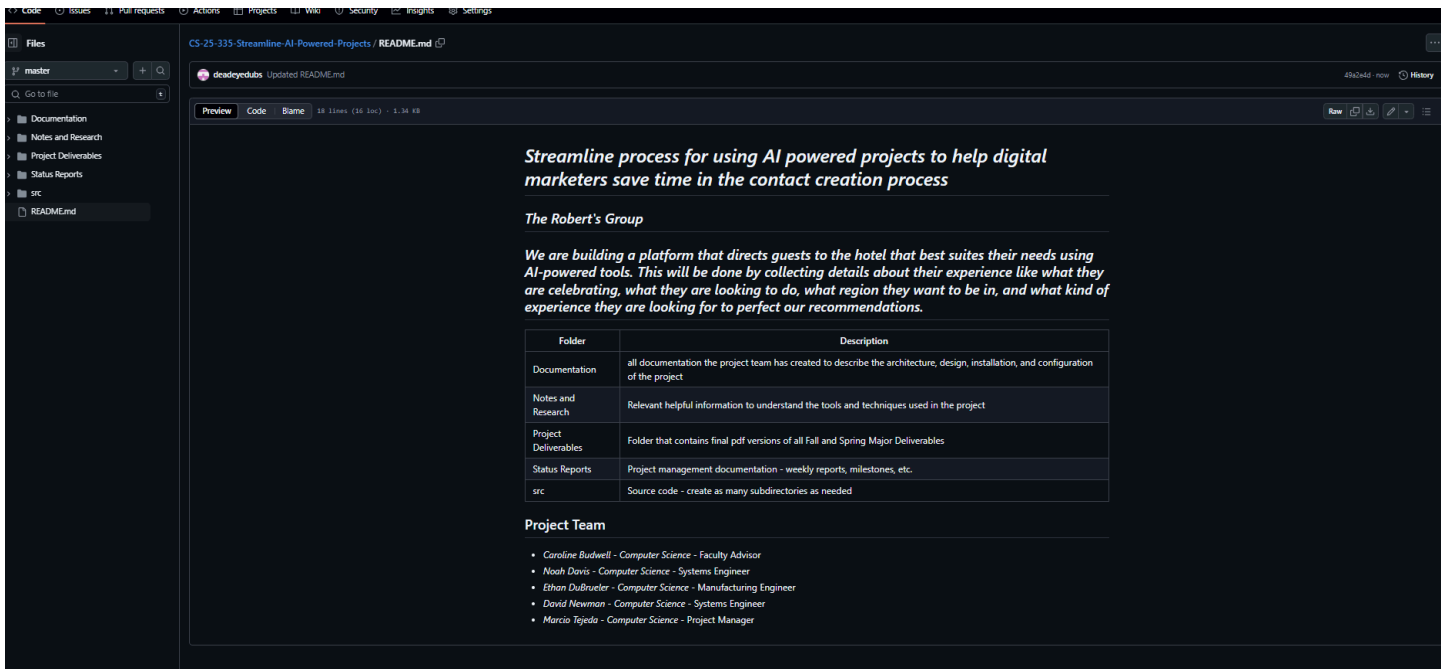

The screenshot shows the GitHub interface for a team named 'CS-25-335 Streamline AI Projects'. The team has 4 members and 0 child team members. The members listed are: KidnDaCandyStore, Marcio Tejeda (marcioRene), davisne2vcu (Maintainer), and Ethan (deadeyedubs). The team's avatar is a green and white pixelated design. The 'About' section describes the team's goal: 'Streamline process for using AI powered projects to help digital marketers save time in the contact creation process'.

Screenshot #2: the repo for your project

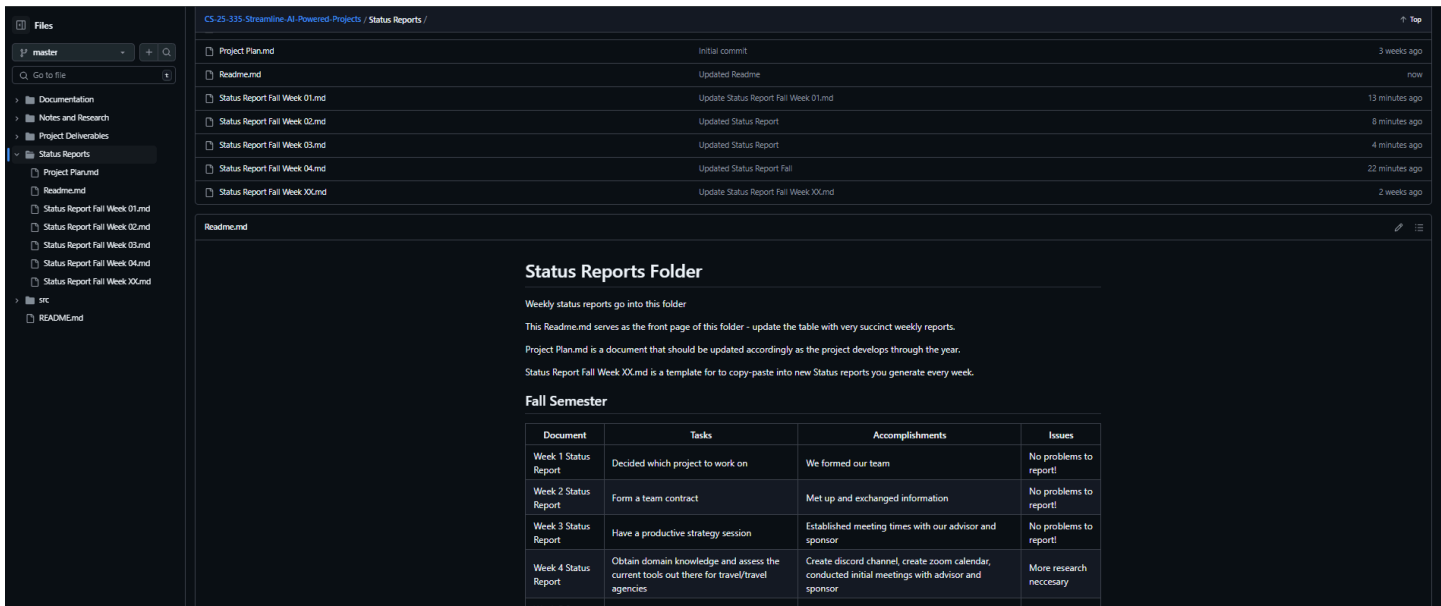

The screenshot shows the GitHub repository page for 'CS-25-335-Streamline-AI-Powered-Projects'. The repository is public and was forked from 'VCU-CS-Capstone/cs-capstone-2024-25-cs-capstone-2024-25-github-repo-set-up-0000---Capstone-Template'. The repository has 1 branch (master) and 0 tags. The 'About' section describes the repository's purpose: 'Streamline process for using AI powered projects to help digital marketers save time in the contact creation process'. The repository has 1 star, 1 watching, and 0 forks. The 'Packages' section indicates that no packages have been published. The 'Files' section shows a list of files and their commit history:

File	Commit	Time
Documentation	Initial commit	3 weeks ago
Notes and Research	Initial commit	3 weeks ago
Project Deliverables	Added team contract	last week
Status Reports	Updated Status Report	13 minutes ago
src	Initial commit	3 weeks ago
README.md	Updated README.md	29 minutes ago

Screenshot #3: update readme.md in the root folder of your repo

CS 25-355 Streamline AI Powered Projects

Students' Names: Noah Davis, Ethan DuBrueler, David Newman, Marcio Tejeda

Faculty Advisor: Caroline Budwell

1) Accomplishments this week

- Create a Discord Server and Zoom Calendar
- Meet with Advisor and Sponsor to discover project specifications

2) Milestones to be completed next week

- We will obtain more domain knowledge and assess the current tools out there for travel/travel agencies

3) Issues, problems or concerns

- We will have to do research to learn which tools are going to be most useful
